MANAGEMENT DISCUSSION & ANALYSIS REPORT

KEY ECONOMIC AND INDUSTRY TRENDS

The Staffing and Recruitment Market is poised for significant growth, projected to reach a remarkable US \$ 2031.34 billion by 2031, up from US \$ 757.56 billion in 2023, reflecting a robust CAGR of 13.1% from 2023 to 2031. This expansion is driven by the increasing job opportunities in the BFSI and IT Sectors, alongside a rising youth population eager to enter the workforce. Key trends shaping the market include the integration of automation and AI-driven recruitment processes, which enhances efficiency and candidate matching. As businesses increasingly adopt remote working and hybrid models, the staffing and Recruitment Market is expected to adapt, offering innovative solutions to meet evolving demands.

While on the one hand, employers are beginning to show their increased reliance on flexible staffing to meet their business imperatives, the regulatory environment in India is also beginning to ease, making it easier for the employers and the staffing players. The future of the staffing industry is also linked to the job scene in the country.

The industry offers various staffing models, including temporary staffing, permanent staffing, contract staffing, and gig or freelance staffing. Temporary staffing remains the most common, but other models are gaining popularity as businesses seek greater flexibility in managing their workforce.

There are five distinctive trends that will have a bearing on the industry and will drive the next phase of growth:

I. Skill and talent gap issues in India

India Inc. needs an industry-ready and job-ready workforce but is facing an acute talent and skill crunch. More than 60% of the 8 lakh engineers graduating from technical institutions across the country every year remain unemployed, according to the advisory body, the All India Council for Technical Education.

Up to 39% employers state that attracting and finding quality talent is one of the most challenging aspects. Remember, 90% of jobs are skill-based, and only 2% of the population (in the 15–25 age group) is currently enrolled for vocational training, compared with 60–80% worldwide. This apart, talent attraction, engagement, and retention remain a big challenge for most employers.

Against this grim backdrop, employers are looking at contingent staffing in a big way. This represents a huge business opportunity for the staffing industry. The industry has to play its part as well in addressing the skill and talent issue for the economy as a whole.

II. Rise of the Gig Economy in India

While the gig economy is in its infancy in India, it is expected to grow in the near future, much like it has grown in the US and other developed markets. A recent study by McKinsey has estimated that up to 20–30% of the workforce in developed markets is engaged in independent work. A recent survey by Flexing It, a platform for independent consultants, indicates that more than a third of the 500-plus organisations surveyed in India expect to rely up to 50% on flexible talent in the next five years. This will have a bearing on the talent strategy of organisations, and therefore should be an important area of focus for the staffing companies in India

III. The rise of digital staffing platforms

Given the rise in need for contingent staffing, several digital staffing platforms, such as Upwork, Shiftgig, and Catalant have emerged overseas. These companies match the talent needs of enterprises and the job requirements of individuals in a cost-effective manner. They are expected to be present in India. This represents a risk and an opportunity for traditional staffing companies. While they represent competition, it can also force the traditional players to go digital and look at diversifying their offerings and building or acquiring digital platform capabilities. This will also lead to M&A s and consolidation, as the staffing players will look to acquire digital platforms to build scale, reach, and access.

IV. Technology as an enabler and differentiator

Technology will become an important enabler and differentiator for staffing companies. They would need to increase their investments in automation for improving efficiencies and technology for improving the hiring and recruitment processes. For example, AI can help automate up to 75 percent of the recruitment process. Of all the staffing industry trends AI is ready to shake up the marketplace in terms of efficiency. AI has the ability to focus on candidate skill levels over unconscious biases. It will also help reduce the time for sourcing, keep you organised, and help analyse big data. Clients would also expect staffing firms to provide productive employees, not just employees, and this would mean investment in technology-enabled productivity improvement solutions. Staffing firms will need to invest in automation solutions for time, attendance, and expense management to increase operating efficiency and improve accuracy for compliance and approvals. The growth of contingent labor, the transition from on-premise to software-as-a-service-based solutions, and the heightened awareness for tracking the hourly workforce will create demand for technology-aided solutions. It will become an important source of revenue for staffing companies in the future.

V. Candidate experience and employee engagement

Given that recruitment is a significant cost element, staffing companies need to improve their talent sourcing capabilities to improve targeting while reducing cost. While investment in recruitment technology will be one aspect of this, they also need to focus on a candidate's hiring experience. Today, social and digital technologies, coupled with newer forms of engagement and assessment through gamification, provide companies with newer avenues to engage effectively with their candidates. Once hired, companies will need to focus on talent from an employee engagement perspective. Millennials have different aspirations, and they have their own requirements from any employer. So it is important to manage them effectively. Candidate experience and employee engagement are critical to building a strong word-of-mouth for the brand, improve the attractiveness as an employer, and driving referrals.

Referrals have emerged as one of the cost effective channels for continent hiring, and it will become critical for staffing companies to tap into this.

In the words of Dwight D Eisenhower, “In preparing for battle, I have always found that plans are useless, but planning is indispensable.”. While we can never predict the future, showing up unprepared shall be inexcusable.

Opinion

We have audited the accompanying standalone financial statements of Caspian Corporate Services Limited (Formerly Known as Intellivate Capital Advisors Limited) ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, where of most significance in our audit of the standalone financial statements of the current year. These matters, where addressed in the contacts of our audit of the statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Management's Responsibility for the Standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statement that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. - identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion' The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3Xi) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

(1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial Guidance Note on Audit of reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

vi PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

- Contingent liability is disclosed in case of:

- a) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- b) a present obligation arising from past events, when no reliable estimate is possible.

- Contingent assets are disclosed where an inflow of economic benefits is probable.

viii Recent accounting pronouncements

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 12 August 2024, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, as below.

Amendments to Ind AS 117

MCA notified Ind AS 117 a comprehensive standard that prescribe, recognition, measurement and disclosure requirements, to avoid diversities In practice for accounting Insurance contracts and It applies to all companies i.e.. to all insurance contracts regardless of the issuer. However Ind AS 117 is not applicable to the entities whose are insurance companies registered with IRDAI.

Additionally, amendments have been made to Ind AS 101 First time Adoption of Indian Accounting Standards Ind AS 103 Business Combinations.

AS 105 Non-current Assets Held for Sale and Discontinued Operations, Ind AS 107 Financial Instruments: Disclosures ,Ind AS 109 Financial Instruments and Ind AS 115 Revenue from Contracts with Customers to align them with Ind AS 117 The amendments also Introduce enhanced disclosure requirements, particularly In Ind AS 107, to provide clarity regarding financial Instruments associated with Insurance contracts.

Amendments to Ind AS 116

The amendments require an entity to recognise lease liability including variable lease payments which are not linked to index or a rate In a way It does not result Into gain on Right or use asset It retains.

The Company has reviewed the new pronouncements and based on its evaluation has determined that these amendments do not have a significant impact on the Company's Financial Statements.

ix Provisions, contingent liabilities and contingent assets

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of

money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. In those cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognised.

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognised because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in other notes to standalone financial statements.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

x Government grants

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets, the cost of assets are presented at gross value and grants thereon are recognised as deferred revenue in the balance sheet and transferred to profit and loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit and loss in the period in which they become receivable.
